PROFILES, T-SLOTS, ACCESSORIES. ALL ON THE SAME SITE.

The clever address for engineers

Until now, engineers and developers had to develop even small quantities of accessories for aluminum profile – only because they decided for a type of t-slot not compatible with standard components. What took a lot of time and money yesterday, will be revolutionarily simple in the future!

WWW.T-SLOT.COM

- ▶ **select** the right profile t-slot quickly and simply – while taking into account already available accessories
- ▶ **download** the appropriate CAD data quickly and for free
- ▶ **integrate** with a twist of the wrist all components in your construction plan
- ▶ **find** the names of all aluminum profile manufacturers (extruders) worldwide

... improves efficiency and reduces costs!
